## EDUCATION & PROFESSIONAL DEVELOPMENT

### Company Description

The Foundation for Allied Dental Education (FADE) was founded in 2011 as a non-profit, public benefit corporation dedicated to advocacy, professional development, and standards-based formal education. In time, hard work and profoundly creative initiatives coupled with corporate and private donations, allowed the FADE Board of Directors to implement a transformative strategic mission when, in 2016, The FADE of El Dorado Hills became a reality; a private institution of higher education focused solely on the dental assisting discipline.

Today, The FADE has been recognized and rewarded for our excellence in education, for making increasingly important contributions to the dental society, and for our scholarly advances enriching the next generation of dental healthcare providers. The personal and professional commitment of our faculty and administrators exemplifies how excellence in formal education is the bedrock by which great dental teams are made.

Our unmatched and highly sought-after courses, programs and educational events are attended by allied dental personnel who know the value in furthering their career via an institution of quality. In the words of our founder: "The FADE's incomparability derives from its dedication to fostering education and opportunity in furtherance of the very profession that we, as dental educators, have ourselves derived so much; but it also stems from our optimism, our resilience and our courage to continue evolving."

Additionally, our goal is to provide Vendor Members with the opportunity to connect with and serve our members. We realize that you have a choice for vendors and services; we only hope that you give our Vendor Members first consideration. The Vendor Member program and the income SDDS receives from this program helps to keep your dues low.

We appreciate you reaching out to and using the products and services that our Vendor Members provide!
